SYMBIOSIS INSTITUTE OF TECHNOLOGY (SIT)

Constituent of Symbiosis International (Deemed University), Pune

(Established under Section 3 of the UGC Act of 1956 vide notification number F-9-12/2001-U-3 of the Government of india)
Re-Accredited by NAAC with 'A++' Grade

॥वसुधैव कुटुम्बकम्॥

THE BIANNUAL NEWSLETTER FROM THE DEPARTMENT OF

JANUARY - JUNE

2026

VISION OF THE DEPARTMENT

To evolve as a centre of excellence in Computer Science and Engineering to produce skilled and proficient global professionals to build the society.

MISSION OF THE DEPARTMENT

- To provide the conducive environment for establishing students in the global platform of research and innovation.
- To educate students on cutting edge technologies with problem solving capabilities, leadership and teamwork skills.
- To inculcate the professional values with lifelong learning through curricular and co-curricular activities and create globally-aware disciplined citizens.
- To commence various initiatives for motivating students to work for the betterment of society.

PROGRAM EDUCATIONAL OBJECTIVES

PEO1: Apply their skills with research orientation and establish themselves globally.
PEO2: Apply problem solving and emerging technology skills for designing solutions .
PEO3: Apply technical and leadership skills to be a successful entrepreneur.

THE GLOBAL SHIFT

SIT Pune's Finest Take on Germany

There is an undeniable allure to crossing borders in the pursuit of excellence. This season, the academic runway points directly toward Technische Hochschule Ingolstadt (THI), Germany—a destination reserved for those who redefine what it means to be a global citizen.

Symbiosis Institute of Technology, Pune, proudly unveils the vanguard of this year's prestigious International Semester Exchange Program. They aren't just traveling; they are setting a new standard.

"True style is an expression of brilliance, commitment, and an uncompromising readiness to embrace the world."

THE DIGITAL RENAISSANCE

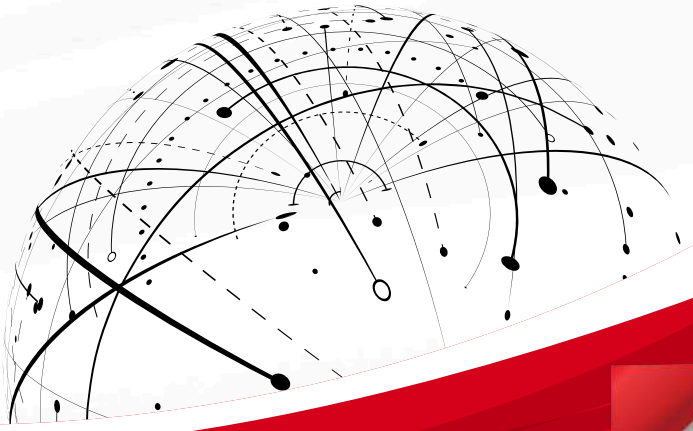

Inside SIT's "AI Unleashed" Masterclass

There is nothing more fashionable than intellectual evolution. On January 17, 2026, the tech elite gathered for "AI Unleashed: From Neural Networks to Cutting-Edge Transformers," an architectural deep dive into the minds of tomorrow.

THE TWO ACTS

- Act I: Neurons to Nets | Curated by Nandini Patawri & Mehuli Majumder A pristine introduction to the building blocks of deep learning—proving that conceptual clarity is the ultimate luxury.
- Act II: Inside Transformers | Curated by Sayantan Nandi A high-octane look at the engine behind modern machine learning, showcasing the exact architectures shaping the future.

THE CYBER AVANT-GARDE

SIT Faculty Decode Deepcytes OS

In the theater of modern tech, defense is the ultimate power move. The D.A.R.C. CoE recently hosted an exclusive, high-octane workshop for faculty members: “Deepcytes OS & Security Use Cases.” Led by cybersecurity visionaries Mr. Shubham Pareek, Mr. Aniket Bacchas, and the Deepcytes team, the session dismantled real-world cyber defense and intelligence workflows.

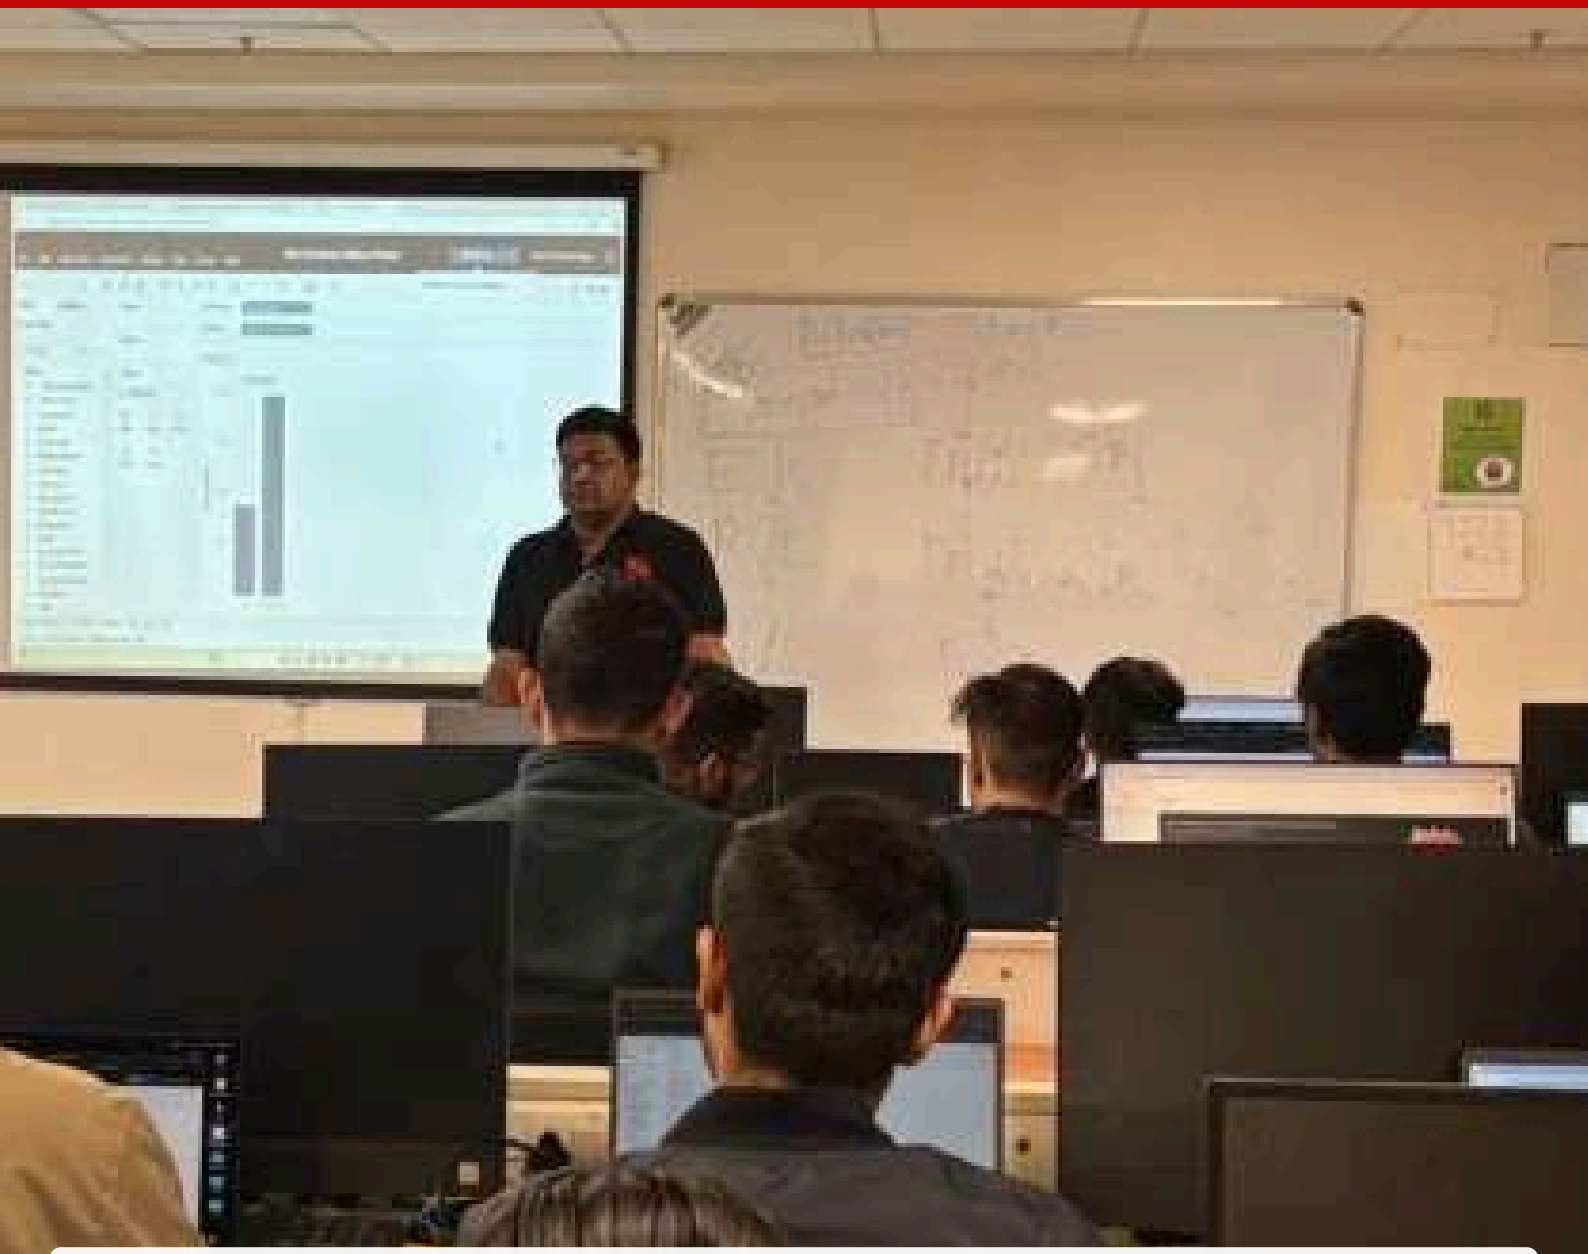

THE LOOKBOOK

- The Ecosystem: Navigating the cutting-edge Deepcytes architecture.
- The Action: Live, hands-on masterclasses in next-gen security tools.

Empowered, equipped, and ahead of the curve, our faculty just upgraded their digital arsenal. Cyber defense has never looked so sharp.

Bridging elite academia with raw industry intelligence isn't just progress—it's a statement.

DATA & DISTINCTION

The SIT ACM Student Chapter recently hosted an engaging Tableau session for CSE and IT students at Symbiosis Institute of Technology, Pune, diving deep into the essentials of data visualization and analytics. The event successfully empowered students with the skills to make data-driven decisions, a feat made possible by the invaluable insights and industry expertise shared by Dr. Deepak Dharrao, Prof. Akash Bhattacharyya, and Dr. Sudhanshu Gonge.

AR CLUB

The Department, alongside its AR VR Club and in collaboration with XDG, Pune, and Snap Inc., successfully hosted the highly anticipated "JustSnap Janu(AR)y" on January 24th, 2026, at Symbiosis Institute of Technology, Pune. This immersive workshop was meticulously designed to offer students a practical, structured gateway into the dynamic world of Snapchat Augmented Reality, placing a strong emphasis on interactive, hands-on learning.

Participants dove deep into the mechanics of AR, experiencing live demonstrations of filter creation before designing and testing their own digital masterpieces in real-time. The vibrant session, complete with interactive Q&A segments and exclusive swag, was brilliantly led by Mr. Kunalraj Singh and Mr. Sudhanshu Ghike, with immense gratitude also extending to Dr. Sashikala Mishra, Dr. Shwetambari Chiwhane, and Dr. Payal Kadam for bringing this visionary event to life.

THE

The seamless execution of this premier event is proudly driven by a management core committee led by exceptional students from the Computer Science and Engineering Department.

PROTECH

Spearheading this initiative are student leads Sai Randive, Arnav Jhodge, Mayank Hete, and Manthan Chahande, whose creative vision and relentless dedication are expertly guided by an esteemed faculty panel featuring Dr. Anupkumar Bongale, Dr. Snehal Bhosale, Dr. Vijayshree Khedkar, and Dr. Akanksha Kulkarni.

THE DUBAI DISPATCH

Our Computer Science and Engineering elite, Gauri Deoghare and Malay Doshi, recently took center stage at the prestigious ISDIA-2026 in Dubai. Hosted at the University of Wollongong, this high-fashion collision of innovation saw our CSE stars unveiling their visionary research to a global audience of tech luminaries.

Their groundbreaking work, "DataWise AI," redefines the analytics landscape by transforming complex data into seamless natural conversation. Published via the legendary Springer proceedings, this multi-agent framework proves that in the world of intelligent systems, our CSE department is the ultimate trendsetter.

Decoding the future of digital defense with industry royalty.

The Department of Computer Science and Engineering recently played host to tech royalty, welcoming Mr. Anirban Mukherji, the visionary CEO of miniOrange, to SIT Pune. His highly anticipated masterclass, "Empowering Next-Gen Cyber Leaders," transcended traditional academic discourse, offering our students an exclusive, high-level glimpse into the vanguard of India's rapidly evolving cybersecurity ecosystem.

ELITE, RESPONSIBLE, VANGUARD

The Department of Computer Science and Engineering proudly spotlights Devaki Joshi, whose exceptional merit earned her an exclusive, fully-sponsored invitation to the prestigious ACM India Annual Event 2026 at IIT Hyderabad. Transitioning seamlessly from the elite ACM India Winter School, Devaki stood as a brilliant representative of our CSE cohort among the nation's foremost tech scholars. Immersed in high-stakes dialogues concerning Responsible AI, Agentic AI, and Information Retrieval in the LLM era, she gained unparalleled exposure to the cutting-edge future of global computing. We extend our absolute highest congratulations to Devaki for this stunning milestone, alongside a standing ovation to the SIT ACM Student Chapter for continually architecting pathways that transform raw talent into industry-defining excellence.

VISIONARY, EXCELLENCE, IMPACT, TRENDSETTER

(ICICC - 2026)

ICICC Springer

INTERNATIONAL CONFERENCE ON INNOVATIVE COMPUTING AND COMMUNICATION (ICICC-2026)

Best Paper Certificate

This is to certify that **Soumili Biswas and Sudhanshu Gonge** receives the best paper award of the paper titled **Real-Time Detection of Executive Stress and Hesitation In Earnings Calls Using Audio Signal Processing** presented in the **9th International Conference on Innovative Computing and Communication (ICICC-2026)**, organized by Shaheed Sukhdev College of Business Studies, University of Delhi, New Delhi, India in association with the National Institute of Technology Patna, India and the University of Valladolid, Spain on **06th-07th February 2026**.

Prof. Poonam Verma
Principal, SSCBS
University of Delhi,
New Delhi, India

Prof. Prabhat Kumar
General Chair
National Institute of
Technology, Patna, India

Prof. A.K. Singh
Technical Program Chair
National Institute of Technology,
Kurukshetra, Haryana, India

Elevating the CSE department's legacy of research excellence to spectacular new heights, our brilliant minds, Soumili Biswas and Dr. Sudhanshu Gonge, have captured the highly coveted Best Paper Award at ICICC-2026.

Their groundbreaking masterpiece, "Real-Time Detection of Executive Stress and Hesitation in Earnings Calls Using Audio Signal Processing," soon to grace the esteemed pages of Springer, is an absolute masterclass in innovation and ethical responsibility. By flawlessly merging advanced audio AI models with high-stakes financial analytics and fraud detection, this visionary duo is not only redefining the technological frontier but firmly cementing our department's status as the ultimate incubator for industry-disrupting talent.

AUTHORS OR FACULTY?

Our Computer Science and Engineering department celebrates a true tour de force as Dr. Vani Hiremani unveils a spectacular trilogy of new edited volumes, charting the high-tech frontier where AI converges with Education, Agriculture, and Mental Health. This scholarly masterclass in interdisciplinary innovation serves as the definitive blueprint for modern research, addressing global challenges with unparalleled academic flair and visionary leadership. By architecting solutions at the intersection of critical human needs and intelligent systems, Dr. Hiremani reinforces our department's status as a premier global incubator for transformative ideas and peerless intellectual excellence.

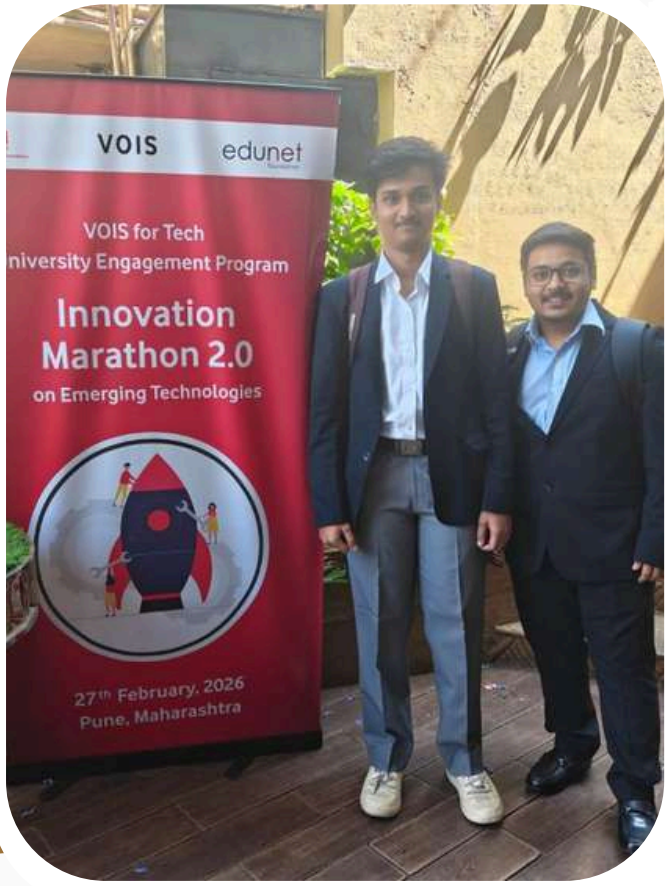

THE AI VANGUARD

The Department of Computer Science and Engineering proudly celebrates the phenomenal success of "TechPeCharcha 2," an elite expert session masterminded by our stellar SIT ACM Student Chapter. Delving into the radical "Advances in AI in Software Development," this high-octane industry dialogue offered our brilliant students an exclusive, front-row seat to the future of technological creation. By flawlessly bridging the gap between rigorous academic theory and cutting-edge industry practice, our department continues to architect the ultimate runway for tomorrow's digital trailblazers, proving once again that dynamic experiential learning is our ultimate signature.

Cementing our reputation as a powerhouse of digital innovation, our phenomenal CSE prodigies—Atharva Sawant, Utsav Sangani, Tanush Abhinav Shah, and Venkata Rohitraj Kesanakurti—have spectacularly conquered the national stage, securing a massive ₹2,00,000 prize at the prestigious VOIS Innovation Marathon 2.0. Outshining fierce competition from 200 elite teams across India, this brilliant victory at the Vodafone Intelligent Solutions summit is a breathtaking masterclass in problem-solving and technical supremacy. This monumental triumph not only sets a dazzling new benchmark for national hackathons but fiercely underscores our CSE department's unparalleled culture of excellence, proving once again that our students are the ultimate architects of tomorrow's tech landscape.

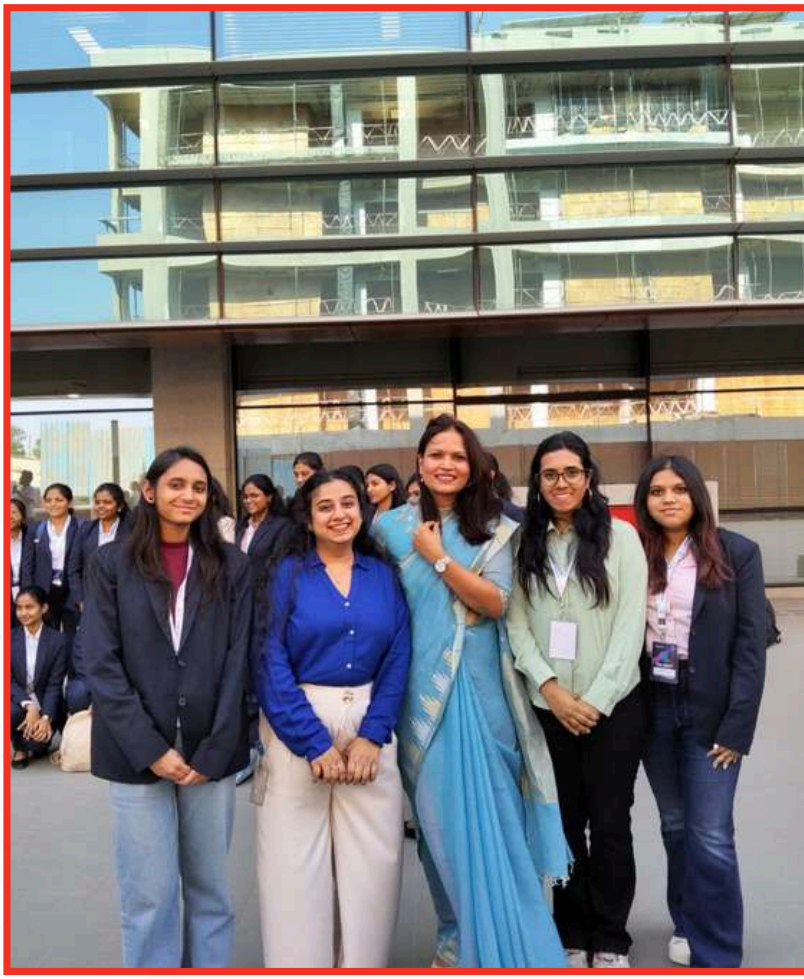

NAARI SHAKTI

A spectacular toast to International Women's Day, our visionary CSE cohort secured an exclusive front-row seat to the highly anticipated 3DS IGNITE Seminar by Dassault Systèmes.

Plunging into the elite "Engineer of Engineers" ecosystem, our students absorbed high-impact keynotes from tech royalty, exploring how avant-garde AI is automating the mundane to unleash boundless human creativity. The summit's pièce de résistance—beyond the breathtaking live immersion into the 3DEXPERIENCE platform—was an electrifying fireside chat with trailblazing women engineers. It was a masterclass in breaking glass ceilings, leaving our future innovators fiercely inspired to sculpt the digital frontier with unapologetic brilliance.

CSE OUTSIDE DEPARTMENT

Redefining agrarian tech, Team Symbiotee—Avikshit, Vineet, Vidhi, and Vivyn—spectacularly conquered the InnovateYou 3.0 Hackathon. Battling 450 elite squads, their autonomous pest-detecting rover, "Khet Rakshak," perfectly embodies our department's fierce spirit of applied AI and student-led technological supremacy.

The Department proudly spotlights Kushbu Agrawal, whose groundbreaking biometrics paper, "SynCAF," dazzled at the prestigious WACV-2026 summit. Championed by our visionary faculty within the elite SCAAI ecosystem, her triumph spectacularly cements our legacy as the ultimate incubator for world-class AI trailblazers.

Pioneering the future of sustainable environments, our CSE and Mechanical Engineering departments have secured a highly coveted International UG Equipment Grant from ASHRAE, powerfully bolstered by FountLab Solutions.

This nearly $9,000 triumph will fund a state-of-the-art Indoor Air Quality (IEQ) Laboratory. Spearheaded by our visionary faculty—Dr. Anindita Roy, Dr. Nilima Zade, and Dr. Deepali Vora—and driven by an elite interdisciplinary student cohort, this project is an absolute masterclass in collaborative innovation.

Celebrating the essence of leadership, our CSE department recently played host to a high-octane IEEE Women's Day summit dedicated to empowering the next generation of digital pioneers.

IEEE VISIONARY VOICES

THE NEXUS GOTERIT

On April 11, our CSE department transformed into a high-fashion runway of innovation for NextGen Nexus 2026, welcoming an elite circle of over 100 industry luminaries. This premier conclave served as a stunning showcase for our students' digital blueprints, where the rigor of Problem-Based Learning met the discerning gaze of tech royalty.

The atmosphere was electric with visionary panel dialogues and high-impact feedback sessions, bridging the gap between raw academic talent and global corporate supremacy. We celebrate the industry leaders who joined us to sculpt the future of our digital pioneers and redefine the standards of professional excellence.

THE DARC PREMIERE

Ushering in a visionary new era of digital defense, our CSE department proudly unveils the elite DARC Lab, a powerhouse of innovation making seismic waves from its very inception. Armed with premier licensed cybersecurity software, this cutting-edge research sanctuary is destined to transform 60 prodigious students into industry trailblazers through exclusive fellowships, high-stakes global collaborations, and coveted digital forensics certifications.

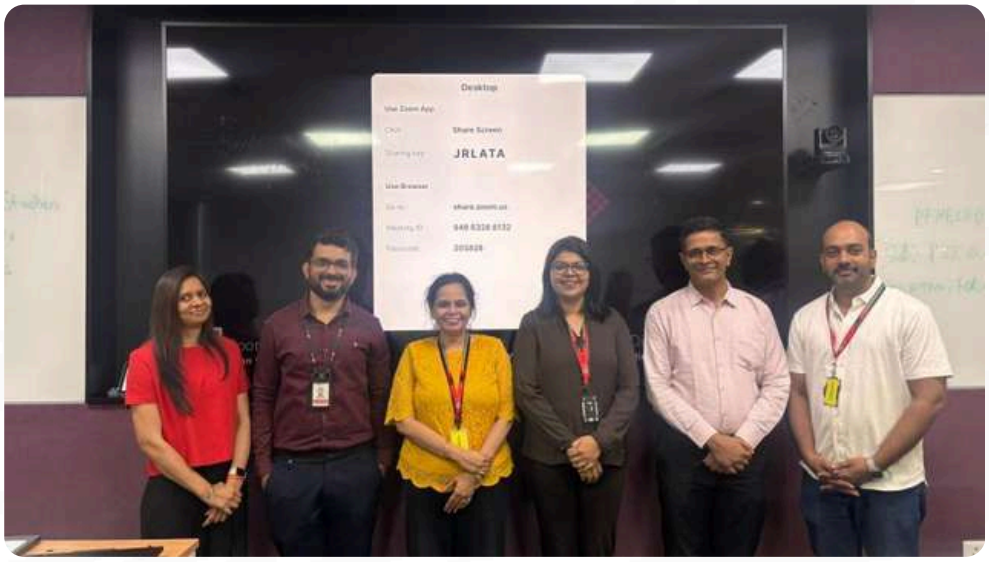

Already setting a spectacular gold standard for academia-industry synergy, the lab has fiercely championed four student masterpieces in a landmark alliance with DeepCytes, proving unequivocally that our department remains the ultimate incubator for tomorrow's most formidable cyber vanguard.

Bridging the elite corridors of academia and global finance, our visionary faculty—Dr. Sashikala Mishra, Dr. Vani Hiremani, and Dr. Amol Dhumane—recently secured an exclusive front-row seat at the two-day HSBC Tech Nexus summit in Pune. Masterminded by Mr. Suhas Sharma and the formidable HSBC team, this high-powered corporate immersion offered our leaders an unparalleled glimpse into the vanguard of emerging tech roles, decoding the precise skillsets required to forge the next generation of hire-ready digital royalty.

This spectacular engagement fiercely underscores our department's relentless drive to shatter the traditional boundaries between academic theory and corporate supremacy.

This spectacular engagement fiercely underscores our department's relentless drive to shatter the traditional boundaries between academic theory and corporate supremacy. By continuously cultivating these premier industry-academia synergies, we are not merely enhancing our curriculum; we are actively architecting a runway where our students can step seamlessly into global internships and high-stakes tech careers, flawlessly bridging the gap between raw potential and industry dominance.

Securing a monumental triumph, our CSE department has captured the elite Australia–India Cyber and Critical Technology Partnership grant. Spearheaded by Dr. Sashikala Mishra, alongside Dr. Ketan Kotecha and Dr. Ranjeet Bidwe, this high-stakes collaboration with Deakin University pioneers quantum-safe digital identities. This spectacular leap in post-quantum cryptography fiercely cements our department as a premier architect of global cyber defense.

SYMBIOSIS INSTITUTE OF TECHNOLOGY, PUNE

Congratulations!

For Receiving

RESEARCH GRANT

Australia–India Cyber and Critical Technology Partnership (AICCTP)

Round 5

The project is led by

Deakin University with SIT Pune as a key partner

PI:

Sashikala Mishra (PhD)

Professor and Head – CSE,
Symbiosis Institute of Technology,Pune

CO-PI

Ketan Kotecha (PhD)

Director, Symbiosis Institute of Technology
Dean, Faculty of Engineering
Head, Symbiosis Centre for Applied Artificial Intelligence

NEWSLETTER MADE UNDER GUIDANCE OF DR. VIJAYSHREE KHEDKAR

This edition stands as a spectacular tribute to the power of visionary mentorship. We owe a profound debt of gratitude to Dr. Vijayshree Khedkar, whose editorial wisdom and steadfast faculty guidance have been the heartbeat of our newsletter team. Her ability to merge academic rigor with creative flair has meticulously shaped the soul of this publication. We also extend our deepest appreciation to Director Dr. Ketan Kotecha and Deputy Director Dr. Deepali Vora; their institutional brilliance and unwavering commitment to nurturing student excellence provide the definitive runway for our department's global triumphs. Under this elite leadership, we continue to architect a future where innovation is our only tradition.

> *"The future is not something we await; it is a masterpiece we architect with unapologetic brilliance and visionary grace."*
