ABOUT THE DEPARTMENT

The Department of Robotics and Automation at Symbiosis Institute of Technology (SIT), Pune prepares future ready engineers to lead the era of Industry 4.0 and Industry 5.0, where intelligent machines, automation, and artificial intelligence are transforming industries and everyday life. Through its specialized programs in Robotics & Automation and Robotics & Artificial Intelligence, the department offers a holistic, interdisciplinary learning experience that integrates electronics, computer science, control systems, robotics, and machine learning. With a strong emphasis on hands-on learning, project-based education, and industry collaboration, supported by facilities such as the Bajaj Engineering Skills Training Centre (BEST), students gain the skills required to design, develop, and deploy intelligent robotic and automation systems that address real-world challenges and shape the future of technology.

INSIDE THE ROBOTICS ECOSYSTEM

- Experiential & Project Based Learning
- Flexible Credit & Elective Pathways
- Major & Minor Courses
- Globally Benchmarked Robotics Curriculum
- Strong Industry Integration
- Advanced Robotics & AI Labs
- Industry Internship Semester
- Professional Skill Development
- Diverse Global Campus
- Personalized Faculty Mentorship
- Student Clubs & Competitions
- Value Added Courses
- Service & Social Innovation Projects
- Innovation & Tinkering Lab
- Global Immersion Program
- Design Thinking & Entrepreneurship
