Celebrating 50 Years of Excellence

Electronics and Telecommunication Engineering Department

May 2026 (AY 2025-26)

Newsletter

Department Vision:

To be a globally recognised excellence hub in Electronics and Telecommunication Engineering, advancing frontier technologies, fostering innovation and entrepreneurship, and nurturing ethically responsible engineers for societal impact.

Department Mission:

- **M1:** To impart multidisciplinary, industry-aligned education that builds strong technical foundations, advanced analytical and critical thinking, creativity for innovation, leadership capabilities, and readiness for lifelong learning.
- **M2:** To promote cutting-edge research, innovation, and entrepreneurship by strengthening faculty expertise through continuous professional development and by fostering collaboration with industry, government, global institutions, and incubation ecosystems to enable students to translate ideas into impactful technologies.
- **M3:** To nurture ethical values, professional integrity, social responsibility, and sustainability awareness for developing inclusive, environmentally responsible, and socially impactful engineering solutions.
- **M4:** To facilitate global exposure through international collaborations, advanced learning pathways, and engagement with emerging technologies, aligned with national missions, preparing students for global careers, higher studies, and impactful societal contributions.

Program Educational Objectives (PEOs):

- **PEO1:** Graduates will establish successful professional careers in Electronics and Telecommunication and allied multidisciplinary domains by applying strong technical competence, structured problem-solving and engineering design skills, and adapting to emerging technologies throughout the product life cycle.
- **PEO2:** Graduates will pursue higher education, research, professional certifications, and entrepreneurial initiatives by applying design thinking, quality practices, and standards-based approaches to contribute to innovation, technological advancement, and sustainable development.
- **PEO3:** Graduates will exhibit leadership, teamwork, ethical conduct, and effective communication skills to design, develop, and implement standards-compliant, high-quality engineering solutions that address societal and industrial needs across the complete product life cycle.

Student Participation:

Third year E&TC students **Hussain Tayyebi, Parth Borikar and Yaman Ansari** qualified GATE 2026.

Final Year students **Arya, Mansi and Vatsal** received internship in Semiconductor domain.

Second-year E&TC students **Dewashish Lambore, Harshika Kamwal, Revanth Sai Sreerangam and Dhriti Manpurkar** reached the Top 188 finalists among 1900+ teams at Hackfest 3.0, Hyderabad, with their project doBOT.diy, a robotics learning platform for rural STEM education.

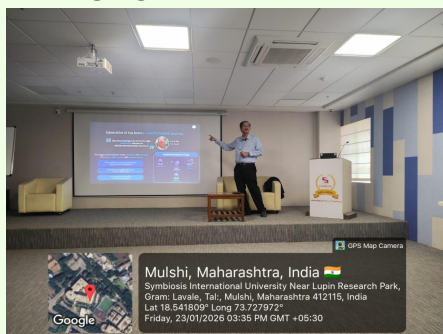

Harsh, Vishwas and Pradnesh from second year, and **Abhishek, Deepti and Aditya** from third year, got internships from Compacarta, a semiconductor startup.

Guest Lectures:

The Department of Electronics and Telecommunication Engineering organized a series of industry guest lectures this semester, giving students direct exposure to current practice and emerging tools.

Mr. Yashowardhan Sowale, VP, Capgemini, spoke on industry trends in Generative AI.

Dr. Maryam Shojaei Baghini, Professor, IIT Bombay, spoke on "Analog/Mixed Signal IC Design for Sensing and Computing".

Mr. Rahul Ahire, Managing Director, Link Code, Pune, conducted a session on "SQL for placement preparation".

Student Development Program (January 2026):

The E&TC Department conducted Student Development Program for second, third and final year students in January 2026. Industry experts led the sessions, covering emerging technologies, programming skills and placement preparation, with particular attention to careers in the semiconductor field.

Service Learning (January-April 2026):

E&TC students took part in a service learning activity that paired academic coursework with community engagement, building problem-solving skills and a stronger sense of social responsibility along the way.

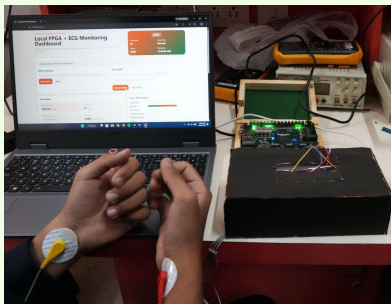

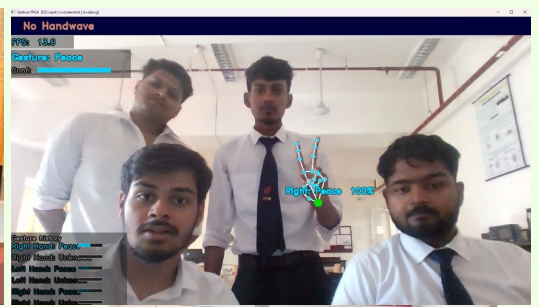

Tinkering in E&TC

In the E&TC Tinker Lab, students learn by taking electronic systems apart and rebuilding them. The hands-on work turns classroom theory into practical skill and sharpens teamwork along the way.

Project Highlights:

Project-based learning gives students a way to test classroom concepts against real engineering problems, working in teams on projects from start to finish.

Department Major Achievements:

IEEE Activity:

IEEE SPS Seasonal School:

The department hosted the **IEEE SPS Seasonal School** on Audio and Acoustic Signal Processing from 27 to 31 January 2026. Students, researchers, academics and industry experts worked together through lectures and hands-on sessions covering audio signal processing, acoustic scene analysis, speech enhancement, AI-driven auditory systems and immersive audio. The week gave participants a close look at where this research is heading and how it is already being applied.

Alumni Reunion:

The E&TC Alumni Reunion 2026 took place on 17 January 2026. Alumni returned to campus, caught up with faculty and old friends, and shared stories about their time at SIT, strengthening the ties that keep the department's community connected.

Industrial Visits:

Industrial Visit to Bharat Electronics:

Industrial Visit to Flash Electronics:

Industry Conclave:

The E&TC Department organized Industry Conclave 2026 on 25 April 2026, bringing together industry experts, faculty and students to discuss emerging technologies, industry expectations and academia-industry collaboration. Students also demonstrated projects in Semiconductors, Embedded Systems, AI, IoT and Communication Engineering.

Faculty Participation:

- Dr. Pritesh Shah recognized as a MathWorks Faculty Ambassador at #MATLABEXPO India 2026 in Bengaluru.
- Dr. Suman Lata Tripathi received a Memento of Recognition from IEEE for her contributions as an author, presented on International Women's Day.
- Dr. MVV Prasad Kantipudi participated in the prestigious InteRussia Fellowship in Medicine, hosted by Sechenov First Moscow State Medical University, in collaboration with the Alexander Gorchakov Public Diplomacy Fund.

Placement details:

Here are the latest placement highlights from the Department of E&TC. Our students have secured placements and internships with reputed organisations including Tracelink, MSD, SLB, Desay SV, Oracle Financial Software, Aeron, MUFG, SAS R&D, ITC Infotech, Accolite, NASDAQ, KION, Spark Minda, CEERI-CSIR, Bharat Electronics Limited, Mumbai Metro, Pulsewave Semiconductor, Analogue Insight and Zentrades, among others. **Some notable achievements are highlighted below:**

- **Maghade Prashik Sheshrao, Anushka Sinha, Mohamad Saad Ansar Bijapuri, Pradnesh Prashant Kapte, Shantanu Srivastava, and Shreya Narayan** secured an internship (stipend of 40k) and placement with **Tracelink** for an annual package of **Rs. 12 LPA**.
- **Nitya Sharma, Nithish Ragavendara H, Ayushi Sharma, and S Tarun Managan** received an internship (stipend of 40k) and placement offer from **MSD** with a **Rs. 12 LPA** package.
- **Desai Sanika Shaunak, Gourangi Tyagi, Sanskriti Jha, and Hardik Kalsule** were placed at **SLB** with an annual package of **Rs. 6.5 LPA**, including a 6-month internship with a **30k stipend**.
- **Aditi Gajendra Naringe and Prathmesh Yadav** received an internship (stipend of 20k) and placement at **Desay SV** with a **Rs. 4 LPA** package.
- **Reetika Singh** secured a placement in **Oracle Financial Software** at **Rs. 9.8 LPA**.
- **Sejal Chauhan** earned placement at **MUFG** with a package of **Rs. 6.5 LPA** and a **25k internship stipend**.
- **Keshav Sharma** was placed with **Aeron** at **Rs. 5.5 LPA** and a **10k stipend** during the internship.
- **Sanusha Menon and Kavya Kumar** secured an internship (**15k stipend**) and placement with **ITC Infotech** for an annual package of **Rs. 8.5 LPA**.
- **Navale Rutuja Rajkumar** secured an internship (**50k stipend**) and placement with a package of **Rs. 8 LPA** at **NASDAQ**.
- **Mehul Saini** received an internship (**20k stipend**) and placement at **KION** with a **Rs. 5 LPA** package.
- **Ayushi Sharma** earned a placement in **Leadsquared** with **Rs. 8 LPA** package and **stipend of 27k**.
- **Utkarsh Jain** secured an internship (**25k stipend**) and placement at **Accolite** with **Rs. 9 LPA**.
- **Vaibhav Navendu Bajpai** got an internship with placement from **Zentrades** with a **30k stipend** and a **Rs. 10.7 LPA** package.
- **Bhirud Tashwita Ameya** received a **15k stipend** internship with a **Rs. 7 LPA** package from **Opus Technologies**.
- **Shivpriya Gupta** earned an internship with a placement offer from **SAS R&D** with a **25k stipend** and a **Rs. 11 LPA** package.
- **Purvansha Gehlod** earned an internship-cum-placement offer from **Tresvista** with a **26k stipend** and a **Rs. 5 LPA** package.
- **Mansi Kanakamedala** earned an internship with a **34k stipend** from **Analogue Insight**, a UK-based semiconductor startup.
- **Arya Dhole** grabbed a research internship at **NCHU, Taiwan**, in the semiconductor domain.
- **Khemani Prisha Lalit** received an overseas internship at **Aston University, UK**.
- **Parikh Vatsal Mehul** earned an internship offer from **PulseWave Semiconductor**.
- **Priyanshu Singha** secured an internship at **Mumbai Metro**.
- **Sanya Jaitly** got an internship at **Spark Minda Technical Center (SMIT)**.
- **Saraswathi S** received a research internship opportunity at **CEERI-CSIR**.
- **Vibhor Kudeshiya** secured an internship at **Bharat Electronics Limited**.
